- Each game has up to One Megabyte of Memory
- Excellent Graphics
- Stunning Stereo Sound
- Exchange Program for games.
- Easy to use Diagnostics
- Easy to change Software

What do you get when you Install "SUPER SELECT SYSTEM" in your location?

You get the latest in video game technology with all these features to maximise your earnings.

- The long term earning potential of up to 10 different new games, all in one cabinet.
- Each game is new. There are no tired re-runs. All have been developed exclusively for the Super Select System.
- Each game comes on Arcadia's unique Megaboard plug in cartridge.
- It takes only a minute to change a game and the machine automatically readjusts to changes. There are NO complicated menus to read.
- Up to ONE Megabyte of memory available in each game allowing for brilliant high resolution graphics and stunning stereo sound.
- A wide variety of games is available, from Sports simulations such as MAGIC Johnson's Fast Break Basketball and Soccer, to the very best in fast action shoot 'em-up's, to fighting Ninja games, so all tastes can be catered for in just one cabinet.
- Arcadia's Megaboard exchange program maximises earnings at minimum risk to the operator while ensuring you will always have the most up-to-date machine in your location. Ask your distributor for details.
- Arcadia's built in comprehensive diagnostics menu allows you to analyse your earnings on individual games, not just the machine - this way you can maximise the earnings of each individual game.
- The system has a built in easy to use software, which enables you to adjust the levels of difficulty and volume control without accessing the heart of the electronics. No more inaccessible dip switches.
- The system is based on the "state of the art" Amiga® technology and Arcadia's custom "Global Control Program" will ensure that the system remains incredibly easy to operate.

WITH ALL THIS IN ITS
FAVOUR, CAN YOU AFFORD
NOT TO INSTALL A
"SUPER SELECT SYSTEM"?
